

High Surfactant Oil Concentrate
Derived from: Paraffinic Oil and Surfactants

HOW IT WORKS

GroCOC™ is a high surfactant crop oil concentrate designed to enhance pesticide contact activity at half the use rate of conventional crop oils– workint to increase spray penetration while reducing droplet evaporation. Designed for use with many pesticides calling for oil concentrate, GroCOC's concentrated formulation requires less bulk storage and space on field-loading equipment.

PRODUCT BENEFITS

- Better spreading than conventional crop oils
- Equal or better efficacy than conventional crop oils at half of the use rate
- Less crop phytotoxicity potential

GALLONS OF WATER/ACRE	1 QUART/100 GALLONS	2 QUARTS/100 GALLONS
