

Nonionic Surfactant, Drift Control, Deposition Aid, Penetrant

PUTTING SOIL-APPLIED NUTRIENT AND CROP PROTECTION PRODUCTS TO WORK

HOW IT WORKS

- GroPre™ is a surfactant and resin blend that improves the uniform movement of water and assists in preventing leaching of pesticides through the soil profile
- This unique blend of vegetable oil-derived surfactant and resin ingredients works to enhance soil absorption and minimizes leaching and loss of critical concentration for a range of soil-applied nutrients and crop protection applications

PRODUCT BENEFITS

- Improves deposition and absorption of spray applications
- Helps prevent pesticide leaching
- Reduces off-target movement & driftable fines
- Compatible with multi-product tank mixes
- Keeps applications on target and reduces splashing

CROPS

Corn, Soybeans, Wheat and
Cereal Grains, Alfalfa, Hay, &
Forages

USE RATE

2 quarts/100 gallons
