

Water Conditioner, Penetrant

AN ALL-IN-ONE SPRAY MIXTURE SOLUTION TO ENHANCE PESTICIDE AND HERBICIDE PERFORMANCE

HOW IT WORKS

- GroTrio™ is a blend of water conditioning agents and surfactants formulated for use with a broad range of pesticide and nutrient spray mixtures
- The water conditioning ingredients in GroTrio work to reduce hard water mineral antagonism of pesticide spray mixtures
- Improves pesticide performance by modifying the wetting and deposition of spray applications for more uniform coverage
- Particularly effective with glyphosate-type herbicides that respond favorably to water conditioners and enhanced absorption of the targeted plant tissue

PRODUCT BENEFITS

- Lower use rate than dry or liquid AMS
- Easy to use with a unique formulation
- Effective on all hard-water situations
- Consistent performance across all spray solutions

CROPS

Corn, Soybeans, Wheat and
Cereal Grains, Alfalfa, Hay, &
Forages

USE RATE

2-8 pints/100 gallons
