PURPOSE STATEMENT

MicroEdge® Sulfur is a foliar fertilizer made up of a combination of nitrogen and sulfur to drive plant growth development and play a crucial role in crop production.

MicroEdge Sulfur also contains CropPWR (Kelp Extracts, biologically extracted) to help mitigate abiotic stress including drought, cold and heat stress.

KEEP OUT OF REACH OF CHILDREN

WARNING

PRECAUTIONARY STATEMENTS

May be harmful if swallowed, inhaled or absorbed through the skin. May cause eye and skin irritation. Avoid contact with open cuts or sores. Avoid breathing vapors. Use with adequate ventilation. Wear personal protective equipment (eye protection and gloves) to avoid contact with eyes, skin, and clothing. Wash hands thoroughly after handling and using this product. In case of contact, flush with water. Get medical attention for eyes. Product users should avoid prolonged or repeated skin contact by wearing impervious gloves, long sleeve shirt, long pants, socks and rubber boots, and splash-proof safety goggles for eye protection.

Density: 10.17 lbs./gal at 68 °F (20 °C)

NOTICE OF WARRANTY: Seller warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for purposes stated on such label only when used in accordance with the directions under normal use conditions. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of the Seller. IN NO CASE SHALL SELLER BE LIABLE FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. ALL SUCH RISKS SHALL BE ASSUMED BY THE BUYER. SELLER MAKES NO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ABOVE.

Manufactured and guaranteed by:

Boone, Iowa, 50036

DIRECTIONS FOR USE

MicroEdge Sulfur is designed for use in all crops as a foliar application and is intended to be used as a supplement to a standard fertility program.

SHAKE WELL before using. MicroEdge Sulfur may be applied using any conventional spraying equipment, irrigation lines or ditches, or overhead sprinklers. Use as much water as possible for maximum coverage and penetration. Do not use with calcium salts. To co-apply with agrochemicals, and/or nutrient programs, consult with an Acre Edge representative on compatibility with other spray materials. Apply as directed below. Because formulations of agrochemicals vary, a small test area should be treated prior to large-scale mixing to determine that no phytotoxicity or undesirable effects occur.

Crop	Application Timing	Rate
Corn	Foliar, post-emerge	1-2 quarts/acre
Soybeans	Foliar, post-emerge	1-2 quarts/acre

STORAGE AND DISPOSAL

Store in original container. Keep container tightly sealed when not in use. Do not store near heat or open flame. Do not reuse container. Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. Store at temperatures above 32°F (0°C). Protect from freezing. Triple rinse (or equivalent) prior to disposal. Add rinsate to tank. Offer container for recycling or disposal in accordance with Federal, State and local regulations. If burned, stay out of smoke.

FIRST AID

If inhaled: Move victim to fresh air. If not breathing give artificial respiration. If breathing is difficult, give oxygen and seek medical attention.

If in the eyes: Immediately flush with water for at least 20 minutes. Remove contact lenses, if present, and continue rinsing eyes. Seek medical attention if irritation persists.

If swallowed: Drink plenty water if conscious. Call a poison control center or doctor immediately for advice on inducing vomiting. Do not give anything by mouth to an unconscious person.

If on skin: Flush affected areas with water. Remove contaminated clothing and launder before reuse.
